Checkride Blues

Common Checkride Failures

Common Checkride Failures

Are you eligible?

How many people come to the test not eligible?

Panelists say they don't have an issue because they use an intake form so that everyone is eligible.

Also, Pete doesn't schedule anyone until the recommendation is in IACRA

Common Checkride Failures

What is the most common failure for each rating?

Why is that?

Oral issues – Rote knowledge vs Depth of Knowledge
Not knowing how to use information

IFR – Circling approaches and long landings

CFI – Not being able to teach/transfer information

Common Checkride Failures

How long is the oral for each of the tests?

Does it vary much?

These two DPEs say their CFI initial orals are around 5 hours

Common Checkride Failures

How much can the applicant use reference material?

What kind is not allowed?

Some applicants haven't ever used the FAA reference material. They can't explain the approved method for performing steep turns, etc. Airplane Flying Handbook etc.

Common Checkride Failures

How long is the wait time for a practical test?

Is that consistent or seasonal for you?

Test availability is seasonal for these two panelists due to location.

Common Checkride Failures

What is the biggest area for the oral for your tests?

Why is that?

Being able to use and teach knowledge – Instructional knowledge

Lecture 1 : National Airspace System

[Chapter 6 : National Airspace System](#)

This updated lecture provides an in-depth exploration of the various types of airspace within the National Airspace System. We'll cover controlled and uncontrolled airspace, special use airspace, and airspace classes, focusing on the rules and regulations that pilots must follow to ensure safe operations in each type.
