Overview

1. So when exactly is night?
2. 61.57 - a ridiculous regulation. You can do 3 takeoffs and landings an hour after sunset and it still isn't night, or maybe it isn't daylight?
3. Winterization kits - on they come for winter.
4. Preheat - heated dipsticks.
5. Forced air heater
6. If you need to wear a winter coat you should probably preheat.
7. Below 32F, 0C and 15F, -5c should preheat. Below -5C need to preheat.
8. Heated hangar or at least a hangar.
9. Removing ice and frost
10. Driving fluid. Hold over times.
11. Runway condition. How about taxiways?
12. Ice on a runway or taxiway.
13. Landing on an unplowed surface -Don't.
14. Blankets, gloves and hats.
15. A winter survival kit.
16. Run ups. Wait until you have oil temperature.
17. Flying in snow. It may not stick to the plane.
18. In a pinch a credit card can remove frost and ice.
19. Sublimation. Park into the sun.
20. Sunglasses. Snow blindness.
